### **SciTech Soymate Project Report**

➤ **Eradication of Malnutrition among children in Mokhada tehsil of Palghar district.**

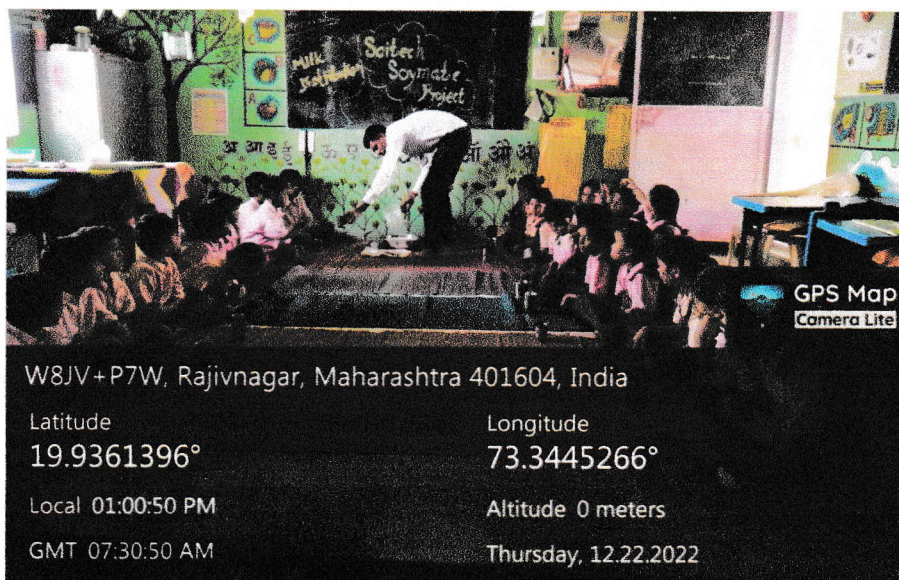

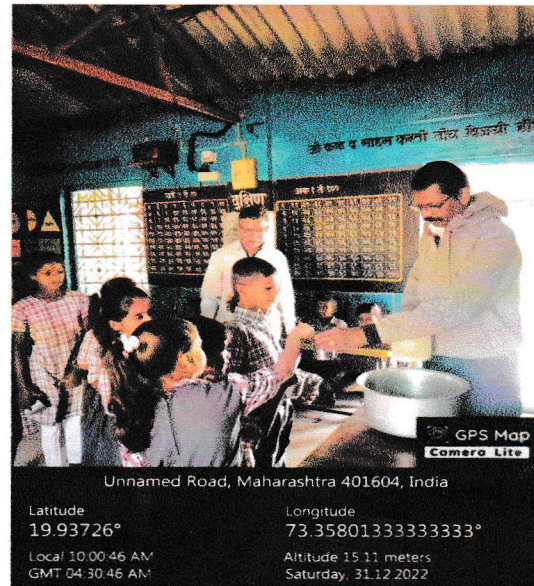

Mokhada is located in the Palghar district of Maharashtra, which has a serious malnutrition problem in children since many years. During the pandemic this rate of malnutrition increase drastically due to lack of dietary supplements in children. As per the figure provided by the Integrated Child Developmental Scheme the death rate due to undernourishment gone high in the March 2020. As Mokhada is the remote area, tribal communities have very low earning sources. So, they can not afford essential food and ultimately due to lack of meal it affects on their nutrition especially in their children.

To overcome this problem our college, take initiative in collaboration with Mukul Madhav Foundation, Finolex Pipes and Science & Technology Park, Pune. Being a nodal agency, we have started a SciTech Soymate Project on Zilha Parishad Schools. SciTech Soymate machine is the machine which prepare a milk from soya seeds. This milk is the good alternative for regular milk and have high nutritional value with high protein content.

We have provided such 10 machines to the 10 schools on various padas, villages with help of our collaboration partners. This schools providing soymilk to children twice in a week. Being a nodal agency, we monitored the height, weight, and overall growth of the children. For this we have appointed a committee to monitor this project. After the months of this project, we have observed that this project is succeeded on mass level. Those children getting soymilk has shown the improvement their immunity, gain in height and

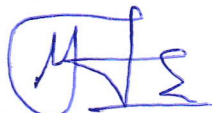

increase in height. This impacts on the overall body posture of the children. Concerned teachers of the school and parents are happy by the project as their malnourished child is getting proper nourishment by the continuous efforts of the college. This initiative growing continuously and now more the 50 schools have demanded this project for the benefit of their students. This way our college is showing a positive role in the development of society and nation.

**Report**

**Date: 21-07-2022**

Mokhada Taluka is the part of Palghar district which is located around 90 KM away from Palgha district. Because of hilly areas there is lack in various modes of communication in different places of Mokhada. That is why Mokhada is considered as tribal region. There are number of problems to which some people and their children in different villages are continuously facing. One of the such problems in the small children of tribal region of Mokhada is the problem of malnutrition. So by knowing the serious effects of malnutrition on the life of small children, Arts Science and Commerce college Mokhada and Mukul Madhav Foundation, Finolex pipes and Science and Technology park Pune Decided to render the service in the community in order to reduce the problem of malnutrition.

On 4<sup>th</sup> March, 2022 Mukul Madhav Foundation, Finolex pipes and Science and Technology Park Pune donated 10 Scitech machines to 10 selected schools in Mokhada Taluka and started the distribution of soyamilk among the selected students. As told before the main moto behind to start this activity is to reduce the problem of malnutrition and to make the awareness among the people of Mokhada Taluka. In the beging of April 2022 the review meeting was organized to know the problems and suggestions of the teachers regarding the activity. In the review meeting it was found that in the month of March, 2022 two schools were unable to provide the soya milk due to lack of electricity but at the beginning of April month only this problem was solved and now all 10 schools are providing the soya milk twice in the week to all the students which are present in the school according to the time table made by them.

Being the nodal agency, Rayat Shikshan Sanstha's Arts, Science and Commerce College Mokhada is looking after the Project. Under the guidance of Dr.L.D. Bhor two professors are appointed to keep the eye on the project for six months from March 2022. These two professors are Mr. Gavande A.J. and Mr. Damse S.K. Along with two professors, 10 college students are also appointed in the committee. The idea of appointing the students is to give the practical knowledge of the project so the student can start such projects in their life to help themselves as well as the community. In this activity the students keep the record of height, weight and general health of the student.

So far it is found that there are 544 students among 10 schools who were benefited up to June 2022. It is also observed that there is remarkable change in the height and weight in of the students. The health of the student is also improving gradually. By the observation after three months the brief changes in the height and weight are mentioned below.

विषय: सायटेक सोयमेट प्रकल्पातील अडचणी संदर्भाबाबत...

महोदया,

वरील विषयानुसार आपणास कळविण्यात येते की आपल्या सहकार्याने हे महाविद्यालय सायटेक सोयामेट प्रकल्प पालघर जिल्ह्यात नोडल एजेन्सी म्हणून राबवीत आहे. या अंतर्गत मार्च २०२२ पासून मोखाडा तालुक्यात प्रायोगिक तत्वावर दहा जि. प. शाळेत हा प्रकल्प कार्यरत आहे. एकूण ४५० विद्यार्थी याचा लाभ घेत असून दहा प्राथमिक शिक्षक याद्वारे कार्यरत आहेत.

परंतु सध्या या प्रकल्पामध्ये सोयाबीन, साखर, दूध वाटप करण्यासाठी ग्लास इ. अडचणी शिक्षकांना जाणवत आहेत. त्यामुळे प्रकल्पात नमूद केल्याप्रमाणे मुलांना सोयामिल्क वाटपात दिरंगाई होत आहे. या बदल शिक्षकांनी या गोष्टी उपलब्धतेबद्दल महाविद्यालयास कळविले आहे.

तरी प्रति महिना दहा शाळांसाठी १५ किलो सोयाबीन व १० किलो साखर याप्रमाणे उपलब्ध करण्याविषयी विनंती आहे.

कळावे,

आपला विश्वासू

**Report**

**Date: 19-10-2022**

On 4<sup>th</sup> March, 2022 Mukul Madhav Foundation, Finolex pipes and Science and Technology Park Pune donated 10 Scitech machines to 10 selected schools in Mokhada Taluka and started the distribution of soyamilk among the students. In the same month 10 students from college with two professors visited the schools to check the status of the activity. In the first visit it was found that two schools out of 10 were unable to distribute the milk due to the lack of the electricity.

In the beginning of April 2022 the **review meeting was organized** to know the problems and suggestions of the teachers regarding the activity. At the beginning of April month only the problem regarding the electricity was solved and all 10 schools started providing the soya milk twice in the week to all the students which are present in the school according to the time table made by them.

Being the nodal agency, Rayat Shikshan Sanstha's Arts, Science and Commerce College Mokhada is looking after the Project. Under the guidance of Dr.L.D. Bhor two professors are appointed to keep the eye on the project from March 2022. These two professors are Mr. Gavande A.J. and Mr. Damse S.K. Along with two professors, 10 college students are also appointed in the committee. The idea of appointing the students is to give the practical knowledge of the project so the student can start such projects in their life to help themselves as well as the community. In this activity the students keep the record of height, weight and general health of the student.

So far up to now, there are 544 students among 10 schools who were benefited till present. It is also observed that there is remarkable change in the height and weight of the students. The health of the student is also improving gradually. By the observation the brief changes in the height and weight are mentioned below.

### **REPORT**

On 13<sup>th</sup> December 2022 the review meeting was organized in Arts, Science and Commerce College Mokhada. The idea behind taking the review meeting was to know the progress of the student and to find out various problems faced by the teachers while providing the soya milk. In the meeting most of the representative teachers of the project mentioned that they provide the soya milk to the students regularly. The students are also very happy to drink the soya milk. There is remarkable change in the height and weight of the students. The representative of the school also told that the IQ level of the students is also developing.

On the other side of the meeting teachers also told that right now they are not getting any financial support from local bodies and currently they do not have any fund from the government that is why it is becoming difficult for them to take various activities in the school including scitech soymate project continuously and properly. After listing to the problems of the teachers the president of the meeting Dr. L. D. Bhor promised that the college will help them to run the project properly. In the same meeting he gave one thousand rupees per school. Total ten thousands rupees were distributed among ten schools.

Prof.A.J. Gavande did the anchoring of the programme. Prof. S. K. Damse did the vote of thanks of the programme. In this way the meeting was completed in happy environment.

Subject: Requesting support from Rayat Shikshan Sanstha's educational institutions at Mokhada for introducing portable innovative Scitech Soyamate in the Schools and Anganwadis to eradicate malnutrition among children in Palghar District, Maharashtra

Dear Sir,

This is to kindly inform you that among several objectives of Science and Technology Park, Pune for promotion of science and technology; promoting hitech startups by way of mentoring and financing is its prime objective and so far, we have directly supported over 1050 start ups through physical incubation and over 1000 virtually. With consistent hard work and disruptive innovation; *the Park has introduced innovative portable Scitech Soyamate in order to tackle malnutrition among children – a serious issue affecting thousands of children even today.*

Palghar has witnessed *an increase in children falling in the SAM and MAM categories since the lockdown began in March 2020.* Deaths due to undernourishment have also gone up, as per figures provided by the Integrated Child Development Scheme. Despite several government schemes, *at over 300 deaths per 1,000 children under age five years, Palghar's children mortality rate is way higher than the national (50) and state average (28).* Due to low immunity malnourished children are more vulnerable to any infection including bone infection than normal children.

The soymilk as a nutrition supplement has been proven to be very effective in eradication of malnutrition. Nutritive value of Soymilk is high: 138 kJ (33 kcal). Soymilk mixed with various essential amino acids and additive flavors can become a delicious drink rich in Carbohydrates, Sugars, Fibers, Vitamins B, C, D and trace elements which form a complete dietary supplement and if given to school children in rural areas, thrice a week, can fight malnutrition completely. Soymilk contains about the same proportion of protein as cow's milk.

Scitech Park, Pune proposes the nodal centre for distribution and training on Scitech Soymate at Rayat Shikshan Sanstha's Arts, Science and Commerce College, Mokhada. Scitech Park would provide all the Soymate machines in the college. Scitech Park in association with Rayat Shikshan Sanstha's Arts, Science and Commerce College, KBP High School and Maharshi Vitthal Ramji Shinde Prathmik and Madhyamik Ashram Shala at Mokhada would identify and train the SHGs, PHC staff, Anganwadi, Baalwadi and Primary school teachers and provide them with Scitech Soymate machines. The total cost of project will be taken care of by Scitech Park in association with Mukul Madhav Foundation, Pune. There will not be any cost incurred to Rayat Shikshan Sanstha.

These operators will primarily operate the machines to provide fresh soymilk to the primary school children and anganwadi children and as secondary operations use the machine to make soymilk and soymilk products for commercial distribution in the village which will provide a source of livelihood for the operator.

### Soymate Machine

- Stylish, Elegant & Portable
- One touch operation
- Intelligent safe heating
- Multifunctional operations
- Digital control Panel
- Multilayer protection system
- Easy to clean design
- Committed service support
- Microcomputer-based control system

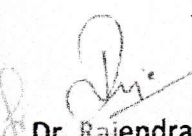

Sir, Scitech Park, Pune sincerely requests your support for introducing this innovative, portable Scitech Soymate machine to the Primary schools, Baalwadi and Anganwadi Centers in the villages in Palghar and in its crusade against malnutrition in children below 6 years to ensure healthy physical and mental development of the children.

As this matter is urgent, we would appreciate a reply as soon as possible.

Thanking You,

Yours sincerely,

  
Dr. Rajendra Jagdale, PhD  
Director General & CEO

## Report on Digital Saksharta Centre

The COVID-19 pandemic brought out starkly the digital divide in the country. While digital literacy was considered to be a choice and privilege in the past for the selective few, it manifested into a necessity in the last 2+ years. The sudden onset of the pandemic in March 2020 had us hoping that the situation would be temporary and that children would soon go back to school. However, the reality was hard-hitting. Students did not attend school physically for a prolonged period, and those in the rural areas suffered the most with no access or affordability to learn virtually.

### Objective –

Given this backdrop, Arts, Science and Commerce College, Mokhada conceptualized the Digital Saksharta Centre project with the objective to bridge the digital divide in rural areas, by imparting computer literacy to children. As a step further, the project also aims to train youth from rural areas in professional IT certificate courses for better employability.

### Project Progression –

July, 2021 to December 2021 –

- Community meetings and baseline assessment
- Partner(s) - Evaluation, selection and onboarding – NIIT Foundation selected and onboarded
- Project Site – Evaluation, identification – Rayat Shikshan Sanstha's Arts, Science and Commerce Senior College, Mokhada, Palghar finalized with written consensus from college authorities
- Repairs, renovation and set-up – initiated in November 2021, the renovation work started with replacing the building roof and included civil repairs, water-proofing, painting – internal and external, false ceiling, partition, IT set up, furniture, battery room, generator set-up among others.

January, 2022 to March, 2022 –

- Currently the project team has 3 members including Centre-Head, IT Trainer and Community Mobilizer.
- Students Mobilization and Batch Formation – More than 120 students from the College and nearby schools and Ashramshalas.
- Courses Planning and Design – Based on their expertise and experience, NIIT Foundation and Arts, Science and Commerce College Mokhada has designed the following courses for the Centre –

संगणकीय लॅब तयार करणेबाबत----

संदर्भ:- १) महाविद्यालयांची C.D.C. बैठक दि. २८/०९/२०२१

२) मा. रामशेठ ठाकूर साहेब यांच्या समवेत J. M. Foundation  
चे पदाधिकारी बैठक दि. ५/१०/२०२१

महोदय,

उपरोक्त विषय व संदर्भानुसार महाविद्यालयात J.M. Foundation Mumbai यांच्या आर्थिक अनुदानातून ४० ते ५० संगणकांची सूसज्ज फर्निचर लॅब तयार करण्याचे विचाराधीन आहे. या बाबत महाविद्यालयाच्या महाविद्यालय विकास समितीच्या दि. २८/०९/२०२१ च्या बैठकीत चर्चा झालेली आहे.

दि. ०५/१०/२०२१ रोजी पनवेल येथील C.K.T.College मध्ये मा. रामशेठ ठाकूर साहेब यांचे समावेत J.M. Foundation चे पदाधिकारी उपस्थित होते. यासाठी सूमारे एक कोटी निधी J.M. Foundation खर्च करणार आहे. वरिल बैठकीत ठरल्याप्रमाणे J.M. Foundation चे पदाधिकारी व NIIT चे पदाधिकारी आज दि. २२/१०/२०२१ रोजी महाविद्यालयाची साईट व्हीजीट करण्यासाठी आलेले होते. त्यांनी आपले निरीक्षण पुढील प्रमाणे नोंदविलेले आहे.

१) महाविद्यालयाच्या जून्या इमारतीची (उत्तर दक्षिण) एक हॉल व १ छोटी खोलीची आवश्यकता आहे. (अंदाजे १६०० Sq.ft.)

२) खोलीचे पत्रे सिमेंटचे व काही ठिकाणी गळत असल्यामुळे तसेच जुने झाल्यामुळे हे पत्रे बदलणे आवश्यक आहे.

३) हॉल व छोटी खोली यांचे रूफ सिलींग करणे आवश्यक आहे.

४) हॉल व छोटी खोली यांचे रंगकाम करणे आवश्यक आहे.

५) या संगणक लॅब व खोलीसाठी स्वतंत्र इलेक्ट्रीकल मीटरची व्यवस्था करणे आवश्यक आहे.

या सर्व बाबी महाविद्यालयाने करावयांचे आहे. या साठी अंदाजे ८ ते १० लाख रु. खर्च अपेक्षित आहे. वरील बाबी उपलब्ध करून दिल्यास दोन ते अडीच महिन्यात जवळपास एक कोटीची स्वतंत्र संगणक लॅब महाविद्यालयात उभी राहू शकेल व मोखाडा सारख्या आदिवासी भागातील विद्यार्थ्यांना संगणकाचे अद्ययावत ज्ञान उपलब्ध होईल. त्याचबरोबर आदिवासी भागातील विद्यार्थ्यांचे संगणकीय कौशल्य विकसीत होऊन स्पर्धेच्या जगात आत्मनिर्भर होता येईल अशी आशा वाटते.

तरी आपणांस नम्र विनंती महाविद्यालयाच्या या नाविष्यपूर्ण उपक्रमास आपली परवानगी मिळावी.

**Subject: Set-up and running JMFF Digital Saksharta Programme at Rayat Shikshan Sanstha's Arts, Science and Commerce Senior College at Mokhada, Palghar**

Dear Sir,

The last one year of the COVID-19 pandemic has shown us the importance of being equipped with the knowledge of using a computer. Our students, especially in rural India, have missed out on precious learning time, owing to the absence of this knowledge and access to digital means, such as computers and the Internet.

As a part of our JMFF Digital Saksharta Programme, a Corporate Social Responsibility initiative of JM Financial group of companies, we had proposed to set up and run digital literacy centres alongwith Rayat Shikshan Sanstha. For the same, we had a meeting with you on October 05, 2021 at Panvel. Post this meeting, JM Financial Foundation team alongwith NIIT Foundation, our partners for the said project, had visited Rayat Shikshan Sanstha's Arts, Science and Commerce Senior College at Mokhada block in Palghar district on October 22, 2021.

We had fruitful discussion with Principal Dr. L. D. Bhor, teaching staff and students of the college. With a very positive response from the staff and students, we are happy to inform that we would like to go ahead with setting up and running digital literacy centre at the college.

The college has agreed to provide two classrooms, one to be set-up as machine room and one as theory classroom. Both the rooms admeasure to a total of about 1800 sq. ft. To initiate our set-up process, we would primarily require repairing of the current asbestos roof in both the allotted classrooms, to ensure that there is no water leakage during monsoons.

--Contd.--

As the college has now started physical classes, we would like to initiate our set-up as soon as possible. While we shall be subsequently signing a Memorandum of Understanding (MoU) for better understanding of each organization's roles and responsibilities, we request you to please expedite the civil work required for water leakage prevention in the allotted classrooms.

We look forward to a fruitful collaboration in helping students to learn and enhance their digital skills for better career opportunities.

Dear Sirs,

This is in reference to our ongoing discussions of setting up and running digital literacy centre alongwith Rayat Shikshan Sanstha. Subsequent to JM Financial Foundation's team visit at Rayat Shikshan Sanstha's Arts, Science and Commerce Senior College, Mokhada, Palghar on October 22<sup>nd</sup>, 2021, we are glad to share that we would like to go ahead with the same at the college as a part of JMFF Digital Saksharta Programme, a Corporate Social Responsibility initiative of JM Financial group of companies.

Please find enclosed an initial letter from us in this regard for your reference.

We look forward to a fruitful collaboration.

Regards,

Devanshi Dwivedi

**जव्हार (अग्रलेख वृत्तसेवा) -** रयत शिक्षण संस्थेचे कला, विज्ञान व वाणिज्य महाविद्यालय मोखाडा यांच्या अभिनव उपक्रमांमुळे मोखाडा तालुक्यातील आदिवासी विद्यार्थी डिजिटल साक्षरतेचे प्रशिक्षण घेत आहेत. पूर्ण आदिवासी असलेल्या मोखाडा तालुक्यातील विद्यार्थ्यांना व तरुणांना संगणक शिक्षण प्राप्त व्हावे, त्याचबरोबर नोकरीची संधी उपलब्ध व्हावी. हे उद्दिष्ट डोळ्यासमोर ठेवून रयत शिक्षण संस्था, जेएम फायनान्शियल फाउंडेशन, मुंबई यांच्या सहकार्याने व एनआयआयटी फाउंडेशन यांच्या माध्यमातून कला, विज्ञान व वाणिज्य महाविद्यालय, मोखाडा येथे डिजिटल साक्षरता केंद्र सुरु करण्यात आलेले आहे. या केंद्राच्या
