**हिमोग्लोबीन संबंधी आवश्यक माहिती**

❖ हिमोग्लोबीन चे शरीरातले प्रमाण

- निरोगी प्रौढ पुरुष : १३.५ ते १७. ग्रॅम /१०० मिलिलिटर
- निरोगी प्रौढ महिला: १२.० ते १५.५ ग्रॅम /१०० मिलिलिटर

❖ हिमोग्लोबीन कमतरतेची लक्षणे

- थकवा
- अशक्तपणा
- चिडचिड
- डोके दुखी
- धाप लागणे
- गरगर आणि चक्कर येणे
- हात पाय थंड भासणे
- केस गळणे

❖ हिमोग्लोबीन वाढीचे नैसर्गिक उपाय

- लोहयुक्त सकस आहार
- बीट, गाजर, रताळे, डाळिंब, अंजीर, काळे मनुके यांचे सेवन करणे
- गूळ शेंगदाण्याचे नियमित सेवन करणे
- निंबू पाणी चे सेवन करणे
- लोखंडी तव्यावर बनवलेल्या भाज्यांचे सेवन करणे
- हिरव्या पालेभाज्या आणि फळांचे नियमित सेवन करणे

# इतिहास विभागाचा सामाजिक उपक्रम

। मोखाडा : रयत शिक्षण संस्थेचे कला, विज्ञान व वाणिज्य महाविद्यालयाच्या इतिहास विभागाच्या वतीने येथील शिवाकोरड्याची मेट या ठिकाणी सामाजिक उपक्रमाचे आयोजन करण्यात आले.

या उपक्रमांतर्गत आदिवासी समाजातील आरोग्य व शिक्षण यातील समस्या आणि त्यावरील उपाययोजना यासंबंधी मार्गदर्शन करण्यात आले. या कार्यक्रमासाठी महाविद्यालयातील इतिहास विभागप्रमुख प्रा. संतोष जाधव सहकारी प्राध्यापक दत्तात्रय भोये, प्रमोद नाडेकर आणि चंद्रकांत

कोरडा वैभव गवारी, चंद्रकांत गावित या विद्यार्थ्यांनी सहभाग नोंदवला. या उपक्रमामध्ये एकूण ४८ नागरिकांनी

सहभाग घेतला होता. त्यात १५ महिला व ३३ पुरुषांचा सहभाग होता. या कार्यक्रमाप्रसंगी प्रा. संतोष जाधव यांनी उपस्थितांना मार्गदर्शन केले. तर

प्रा. दत्तात्रय भोये यांनी शिक्षणाचे महत्त्व पटवून दिले. दसम्यान, चंद्रकांत कोरडा या विद्यार्थ्यांनी आपले मनोगत

व्यक्त केले. या कार्यक्रमासाठी महाविद्यालयाचे प्राचार्य डॉ. भोयांचे मार्गदर्शन लाभल्याचे विद्यार्थ्यांनी सांगितले.

## इतिहास विभाग आयोजित

### मोखाडा येथील हुतात्मा स्मारकास भेट व स्वच्छता अहवाल

मोखाडा येथील हुतात्मा गणपत खरोटे यांच्या स्मारकास भेट दिली. 1942 च्या छोडो भारत आंदोलनात सक्रियपणे सहभाग घेऊन आपल्या प्राणाची आहुती देणारे देशभक्त गणपत खरोटे यांच्या स्वातंत्र्य आंदोलनातील योगदानाविषयी विद्यार्थ्यांना आणि येथे उपस्थित असणाऱ्या नागरिकांना भारतीय स्वातंत्र्य चळवळीविषयी माहिती दिली. गणपत खरोटे यांची नातू सौरभ खरोटे यांच्याशी संवाद साधून स्मारकाविषयी माहिती आत्मसात केली. हुतात्मा स्मारकात विद्यार्थ्यांकडून स्वच्छता करून घेतली. मोखाडा परिसराला लाभलेला हा ऐतिहासिक वारसा खूप मोलाचा आहे. अशा ऐतिहासिक स्मारकांचे संवर्धन होणे महत्त्वाचे आहे. म्हणून परिसर स्वच्छता व कार्यक्रमांचे आयोजन करणे गरजेचे आहे. त्यासाठी प्रयत्न होणे आवश्यक आहेत. त्यातून विद्यार्थी व नागरिकांच्या ऐतिहासिक वारशाचे महत्व लक्षात यावे व ऐतिहासिक स्थळांचे जतन व संवर्धन करावे. यासाठी हा उपक्रम राबविण्यात आला.

### स्मारक परिसरात विद्यार्थी स्वच्छता करतनाची क्षणचित्रे

## स्मारक परिसरात विद्यार्थी स्वच्छता क्षणचित्रे

विद्यार्थ्यांनी परिसर स्वच्छ करून नागरिकांमध्ये स्मारक स्वच्छता व संवर्धनाविषयी जागृती केली.

## **1. Introduction of SHG:**

A SHG is an informal association to enhance the member's financial security as primary focus and other common interest of members such as area development, awareness, motivation, leadership, training and associating in other social inter-mediation programmes for the benefit of the entire community.

Self-help groups are informal groups of people who come together to address their common problems. While self-help might imply a focus on the individual, one important characteristic of self-help groups is the idea of mutual support – people helping each other. Self-help groups can serve many different purposes depending on the situation and the need. For example, within the development sector, self-help groups have been used as an effective strategy for poverty improvement, human development and social empowerment and income-generating activities.

Self-help group (commonly SHG) is a financial intermediary group usually composed of 12 to 25 local women between the ages of 18 and 50. Most self-help groups are in India, though they can be found in other countries, especially in South Asia and Southeast Asia. A SHG is generally a group of people who work on daily earnings who form a loose grouping or union. Money is collected from those who are able to donate and given to members in need. Members may also make small regular savings contributions over a few months until there is enough money in the group to begin lending. Funds may then be loaned back to the members or to others in the village for any purpose.

In India, RBI regulations mandate that banks offer financial services, including insurance free loans to these groups, on very low interest rates. This allows poor women to circumvent the challenges of exclusion from institutional financial services. This system is closely related to that of unity lending, widely used by microfinance institutions. Beyond their function as savings and credit groups, SHGs offer poor women a platform for building solidarity. They allow women to come together and act on issues related to their own lives including health, nutrition, governance and gender justices.

## **2. Goal / Objective of SHG:**

- To provide micro-finance to groups is normally the primary objective of a Self-Help Group (SHG). These groups aim to facilitate the process of self-empowerment. A self-help group (SHG) is a financial intermediary committee usually composed of 10 to 20 local women or men.
- Saving on a regular basis, after a year or two, the group also becomes eligible for availing loan from the bank. The loan is sanctioned in the name of the group and is meant to create self-employment opportunities for the members.
- The SHG's not only collect and save money regularly but also provide the members of the group, an opportunity to discuss regarding the amount of loan and the interest rate to be charged. It, therefore, provides a platform to seek financial independence to the rural poor and women.
- The SHG's help borrowers overcome the problem of lack of collateral while getting loans.

5

- Saving on a regular basis, after a year or two, the group also becomes eligible for availing loan from the bank. The loan is sanctioned in the name of the group and is meant to create self-employment opportunities for the members.
- The SHG's not only collect and save money regularly but also provide the members of the group, an opportunity to discuss regarding the amount of loan and the interest rate to be charged. It, therefore, provides a platform to seek financial independence to the rural poor and women.
- Self-help groups are started by non-governmental organizations that generally have broad anti-poverty programs. Self-help groups are seen as tools for goals including empowering women, developing leadership abilities among the poor and the needy, increasing school enrolment and improving nutrition and the use of birth control. Financial intermediation is generally seen more as an entry point to these other goals, rather than as a primary objective.

### 3. The Context:

Self Help Groups (SHGs) are small groups of poor people. The members of an SHG face similar problems. They help each other, to solve their problems. SHGs promote small savings among their members. The savings are kept with the bank. Self Help Groups (SHGs) are small groups of poor people. The members of an SHG face similar problems. They help each other, to solve their problems. SHGs promote small savings among their members. The savings are kept with the bank. From one family, only one person can become a member of an SHG.

The group normally consists of either only men or of only women. Mixed groups are generally not preferred. Women's groups are generally found to perform better. Self-help Groups (SHGs) are informal associations of people who come together to find ways to improve their living conditions. They are generally self-governed and peer-controlled. Every Self-help group usually goes through 3 stages of evolution stated below:

1. Formation of group
2. Funding or Formation of Capital
3. Development of required skills to boost income generation for the group

Many self-help groups are formed with the assistance of Self- help to promote agencies. The various types of Self-help promoting agencies are stated below:

1. Non-governmental agencies
2. Government
3. Poverty management programmes
4. State & commercial banks
5. Microfinance institutions
6. SHG Federations
7. SHG leaders/Entrepreneurs.

#### 4. **Importance of SHGs:**

- It helps in improving the quality of living by providing employment opportunities through micro-finance entrepreneurship. It improves the living standard, Health Care, birth control and literacy rates of the weaker sections of the society.
- An economically poor individual gains strength as part of a group.
- Besides, financing through SHGs transaction costs for both lenders and borrowers. Where successful, SHGs have significantly empowered poor people, especially women, in rural areas.
- The SHGs have helped immensely in reducing the influence of informal lenders in rural areas.
- Many big corporate houses are also promoting SHGs at many places in India.
- The SHGs help borrowers overcome the problem of lack of collateral. Women can discuss their problem and find solutions for it.
- A SHG is to enhance the member's financial security as primary focus and other common interest of members such as area development, awareness, motivation, leadership, training and associating in other social inter-mediation programmes for the benefit of the entire community.
- SHGs play a vital role in giving credit access to the poor and this is extremely crucial in poverty alleviation. They also play a great role in empowering women because SHGs help women from economically weaker sections build social capital.
- Self-help groups help in women's empowerment by making them independent financially and intellectually.
- It has a serious role to play in combating social evils like gambling, alcoholism, white plague, and more. It instils better habits within the members and leads them to be responsible and become better individuals.
- It helps in elevating the utilization opportunities in rural India and for the agricultural and concrete amongst poor people. It supports micro-level entrepreneurship which reduces the dependence on one source of income and widens income horizons for the members.
- On being a member of SHGs, quick access is provided to government policies and schemes. The schemes are meant for the marginalized and backward section of the society from which most of the members belong.
- It helps in improving the quality of living by providing employment opportunities through micro-finance entrepreneurship. It improves the living standard, Health Care, birth control and literacy rates of the weaker sections of the society.

- It helps within the financial discipline because the members are encouraged to open savings bank accounts which a brief marginalized Savings and improvement in living conditions by spending on education, health, and more
- It increases the active participation within the democracy of the members and all other aspects of the government The weekend marginalized section of the society would be included within the government which might pave way for better roles and policies for his or her development and betterment
- They help women to become financially self-reliant.
- To increase income generating activities.
- To promote saving and raises status in society.

#### 5. **Limitations:**

- Ignorance of Members/Participants.
- Inadequate Training Facilities
- Lack of Stability and Unity Especially among women SHGs.
- Availability of funds is limited since funds are pooled by limited members
- Limited working hours and seasons for the operations of the facilities.
- Weak Financial Management.
- Finance is a powerful element in case of operating a micro enterprise like SHGs. The members of the SHGs are usually rural poor women who have little to no knowledge about formal banking and credit system. they were facing finance related problems.
- In case of the SHGs, proper marketing is necessary to be successful. However as stated by the respondents, the second most problem faced by them was the marketing problem.

#### 6. **Research Methodology:**

The Research Methodology includes sources of data, collection of data and analysis of data. It seems appropriate at this junction to explain the difference between research methods and research methodology. Research methods are understood as all those techniques that are used for conduction of research. Research methodology is a way to systematically solve the research problem. Methodology in simple words it means the way, procedure, method in which a function is executed. In other words, Methodology explains the systematic process for a function.

#### 7. **Concept of SHGs:**

- The clear goals, which originate from the needs of group members and are known and shared by all members.
- Informal structure and basic rules, regulations and guidelines to show members how to work effectively together.

8

- Participatory nature – involving getting help, sharing knowledge and experience, giving help, and learning to help oneself.
- Shared responsibility among group members – each member has a clear role and contributes his/her share of resources to the group.

#### 8. **Features of SHGs:**

The features of Self-Help Group (SHG) are:

- People form their personal groups for the purpose of savings and also lend money among themselves.
- Rate of interest is lower than informal service providers.
- They can also avail loans from banks if their savings are regular.
- Developing and enhancing the decision-making capacity of members.
- Increasing general awareness on literacy among members.
- Equipping the poor with basic skills for understanding monetary transactions.
- Maintaining books and registers to ensure proper accounts.
- provide a financial resource for the poor through organizing the rural poor especially women, into small Self-Help Groups.

#### 9. **Evidences of SHGs:**

Women's groups are important rural social and financial institutions. In India, a large majority of women's groups programs are implemented through self-help groups (SHGs). Originally designed as savings and credit groups, the role of SHGs has expanded to include creating health and nutrition awareness, improving governance, and addressing social issues related to gender- and caste-based discrimination. The Indian women from five states to study the impact of SHG membership on women's empowerment in agriculture, using the project-level Women's Empowerment in Agriculture and financial. This improvement in aggregate empowerment is driven by improvements in women's scores, not a deterioration in men. Greater control over income, greater decision making over credit, and (somewhat mechanistically, given the treatment) greater and more active involvement in groups within the community lead to improvements in women's scores. The insignificant impacts on attitudes towards domestic violence and respect within the household suggest that women's groups alone may be insufficient to change deep-seated gender norms that disempower women.

**Speaker: Sharing Information of Banking Receipt to Tribal women**

## 10. Data Analysis:

### 1. Table No. 1.1: Main occupation of husbands of SHGs Member:

Agriculture	Services	Business	Other	Total
09	01	-	-	10
90%	10%	-	-	100%

Source: Primary data

**Conclusion:** It is concluded that 90% husbands of SHGs members are having agriculture as their main occupation.

### 2. Table No. 1.2: Fulfillment of household Expenses:

Yes	No	Total
-	10	10
-	100%	100%

Source: Primary data

**Conclusion:** 100% members have mentioned that it is not possible to manage the household expenses only through agriculture.

### 3. Table No. 1.3: Separate business or services before joining of SHGs:

Yes	No	Total
-	10	10
-	100%	100%

### 4. Table No. 1.4: Basic motivation for initiating business:

SHG	Other	Total
10	-	10
100%	-	100%

**Source: Primary data** the data were collected from both primary and secondary sources. Questionnaire method is used for collecting the primary data.

## **11. Conclusions:**

### **a) From Primary Data:**

1. It is concluded that 90% husbands of SHGs (Self- Help Group) members are having agriculture as their main occupation and it is not possible to manage all expenses through agricultural income only.
2. The main problem faced by 90% SHGs members was about lack of knowledge of Banking transactions.
3. It is being observed that 30% members are involved in poultry, dairy products and food processing business which are inter related and helpful to each other and 90% SHGs members have took the benefit of loan to support their business.
4. 100% SHGs members have noted that they have experienced development in confidence through SHGs.
5. 100% SHGs members are ready to learn and implement cashless transactions in practice.

### **b) From Secondary Data:**

1. Our SHGs has gained a lot of significance and momentum from microfinance.
2. The SHGs is necessary to overcome exploitation, create confidence for economic self-reliance in the poor, particularly in women who are mostly invisible in the social structure.
3. Self-help approach is a fast-gaining acceptance international as the most appropriate instrument to reach out to the poorest of poor in a most effective way.
4. Due to SHGs the women have become prominent to face any challenge of any level.
5. The overall finding threw a light on certain broad feature of our particular area & such as the study may be of practical use in formulating better plans.

## **Conclusions:**

- Self-help group is a useful platform to enhance women's health through increased knowledge and awareness on health issues, and financial security during health emergencies etc. it's very active in providing income generating activities.
- It is found that the income of the women has been increased after joining the SHGs. So that they can manage the monthly house hold expenditure which has risen to a considerable level. But the savings is increasing at slow rate, because the incremental expenditure is higher.

### Outcomes:

- Self-help group members develop knowledge and skills that enable them to become contributors in their families and communities.
- Self-help groups join together to form federations and become self-sufficient.
- The SHGs help the borrower to overcome the problem of lack of collateral. They can get timely loans for a variety of purposes and at a reasonable interest rate. SHGs are the building blocks of organisation of the rural poor.
- The very existence of SHGs is highly relevant to make the people of below poverty line hopeful and self-reliant. SHGs enable them to increase their income, improve their standard of living and status in society. It acts as a catalyst for bringing this section of society to the main stream.

## **Report**

In the academic year **2021-2022**, the Innovative projects on “**Women Self-Help group- Self-Earning guidance programme**” conducted by NSS students at Tulyachapada Taluka Mokhada, Dist. Palghar. Total **07** students participated in this project. It covers the various Financial Inclusion and incomes for women self-help groups. The projects aim to enhance the large number of micro enterprises in the tribal, rural areas building upon the potential of the tribal women & rural people. It helps to promote first-generation micro entrepreneurs with resource organization on their own through their SHGs.

The projects outcomes to enhance the tribal women towards digital banking and increasing knowledge, awareness and creating a large number of micro enterprises in the rural areas, building upon the potential of the rural people. The study employed a combination of quantitative and qualitative methods and the data collected both from primary and secondary sources. All the activities are conducted under the guidance of Hon. Principal of the college.

## INTRODUCTION

Ethnobotany is a scientific discipline that comprises the study of human interaction with plants. It mainly focuses on the study of a region's plants along with the practical knowledge of those plants with the help of the traditional knowledge of local people and their culture. It is a branch of botany which dates to ancient times.

Plant resources have always served the primary needs of humans (including healthcare) since time immemorial. Indigenous knowledge of plants is recognised worldwide owing to their intrinsic value, as well as in the field of modern drug development.

Mokhada taluka is located in the womb of Western Ghats. It having most of the Tribal communities like Varli, Thakar, Kokna, Katkari etc. which having deep medicinal knowledge of many wild plants. This knowledge is still hidden from the world. To create awareness about this to the world we have selected this topic.

Suryamal is one of the small villages of Mokhada taluka which having an ancient knowledge of tribal Thakar community which provide a drug from the unknown plant samples which is helpful in the healing of fractured bones. To survey of this area and getting knowledge from this tribal community is helpful for society to create awareness about this tribal medicine.

## OBJECTIVES

- To create awareness about tribal medicines
- To survey medicinal plants of Suryamal and surrounding area
- To uplift tribals lifestyle by spreading knowledge of the medicinal wealth to the mainstream society
- To make peoples aware about surrounding medicinal plants

## Ethnobotanical study and Medicinal plants survey of Suryamal area

---

Suryamal is located  $19.7557^{\circ}$  N,  $73.3469^{\circ}$  E near Khodala in Mokhada tehsil. It is one of the tribal villages of Mokhada tehsil having Thakar, Kokna, Varli tribes. Among this tribes Thakar tribe prepares an ancient herbal medicine from the unknown plant samples which is useful on the Fractured bone healing.

The medicine was prepared by the old traditional method by collecting the unknown plants and stored them in a bucket of bamboo. This medicine then mixed with water and cow urine and stored again. Then this were dried and packed into leaves of *Butea monosperma*.

The decoction of this medicine was taken by soaking it in water for overnight and the filter through cloth and remaining water sample is consumed in morning before meal. It is most useful for the fractured bone healing.

Along this we were visited the surrounding area which is having diverse flora and fauna. Many medicinal plants were observed in this area, which were conserved by the forest department.

Plants like *Holarrhena pubescens*, *Curcuma pseudomontana*, *Aegel marmelos*, *Moringa oleifera*, *Trichodesma indicum* are observed.

### List of medicinal plants recorded at Suryamal

Sr. No.	Name of plant	Family	Plant part used	Medicinal uses
1.	<i>Adathoda zeylanica</i> Medik.	Acanthaceae	Leaves	Cough
2.	<i>Argemone mexicana</i> L.	Papaveraceae	Root	Typhoid fever
3.	<i>Bauhinia racemosa</i> Lam.	Caesalpinaceae	Leaves	Diuretics
4.	<i>Butea monosperma</i> (Lam.) Taub.	Fabaceae	Bark, flower & gum	Bone break
5.	<i>Calotropis gigantea</i> (L.) R.Br.	Asclepiadaceae	Flowers	Cough & asthma
6.	<i>Canscora diffusa</i> (Vahl) R.Br.	Gentianaceae	Root	Constipation
7.	<i>Carissa congesta</i> Wight	Apocynaceae	Fruits	Acidity
8.	<i>Cassia auriculata</i> L.	Caesalpinaceae	Flowers	Diabetes
9.	<i>Clematis heynei</i> M.A. Rau.	Ranunculaceae	Leaves	Spot in eyes
10.	<i>Cleome viscosa</i> L.	Cleomaceae	Seed	Stomach Worm
11.	<i>Clerodendrum serratum</i> (L.) Moon	Verbenaceae	Root	Cough & fever
12.	<i>Cocculus hirsutus</i> (L.) Diels	Menispermaceae	Root	Gout
13.	<i>Curculago orchioides</i> Gaertn.	Hypoxidaceae	Rhizome	Diuretic
14.	<i>Cuscuta reflexa</i> Roxb.	Cuscutaceae	Whole plant	Improve appetite
15.	<i>Cynodon dactylon</i> (L.) Pers.	Poaceae	Rhizome	Diuretics
16.	<i>Cyperus rotundus</i> Vahl	Cyperaceae	Rhizome	Skin diseases
17.	<i>Dichrostachys cinera</i> (L.) Wight & Arn.	Mimosaceae	Root	Vaginal disease
18.	<i>Ficus racemosa</i> L.	Moraceae	Fruits	Bleeding from nose & urine

19.	<i>Helictres isora</i> L.	Malvaceae	Fruit	Child stomach ache
20.	<i>Hemidesmus indicus</i> (L.) Schultes	Asclepiadaceae	Root	Cosmetics
21.	<i>Hibiscus rosa-sinensis</i> L.	Malvaceae	Flower	Hair color
22.	<i>Holarrhena pubescens</i> (Buch.-Ham.) Wall. Ex G.Don.	Apocynaceae	Root bark	Fever
23.	<i>Hygrophila auriculata</i> (K. Schum.) Heine	Acanthaceae	Root	Aphrodisiac
24.	<i>Kalanchoe pinnata</i> (Lam.) Pers.	Crassulaceae	Leaves	Injury
25.	<i>Madhuca longifolia</i> (Koen.) Macbride var. <i>latifolia</i> (Roxb.) Chevalier	Sapotaceae	Flower	Increase appetite
26.	<i>Mangifera indica</i> L.	Anacardiaceae	Bark	Bleeding of liver, intestine & uterus
27.	<i>Mollugo pentaphylla</i> L.	Molluginaceae	Stem & leaves	Improve appetite
28.	<i>Momordica dioica</i> Roxb. ex Willd.	Cucurbitaceae	Rhizome	Diabetes
29.	<i>Moringa oleifera</i> Lam.	Moringaceae	Leaves	Eye disease
30.	<i>Nerium indicum</i> Mill.	Apocynaceae	Root bark & leaves	Snake bites
31.	<i>Phyllanthus emblica</i> L.	Euphorbiaceae	Fruits	Diabetes
32.	<i>Physalis minima</i> L.	Solanaceae	Whole plant	Breast hardening

33.	<i>Sesamum orientale</i> L.	Pedaliaceae	Leaves	Dandruff
34.	<i>Sida acuta</i> Burm.f.	Malvaceae	Root	Indigestion
35.	<i>Spermacoce hispida</i> L.	Rubiaceae	Root	Blood purification
36.	<i>Sphaeranthus indicus</i> L.	Asteraceae	Whole plant	Urinary disease
37.	<i>Tectona grandis</i> L.	Verbenaceae	Bark	Acidity
38.	<i>Terminalia arjuna</i> (Roxb. ex DC) Wight & Arn.	Combretaceae	Bark	Heart stimulant & improve strength
39.	<i>Tinospora cordifolia</i> (Willd.)Miers ex Hook. f.&Thoms.	Menispermaceae	Stem	Tonic
40.	<i>Trianthema triquetra</i> Rottl.ex Willd.	Aizoaceae	Whole plant	Expectorant
41.	<i>Trichodesma indicum</i> (L.) R.Br.	Boraginaceae	Whole plant	Heart disease
42.	<i>Tridax procumbens</i> L.	Asteraceae	Leaves	Injury
43.	<i>Tylophora dalzielii</i> Hook.	Asclepiadaceae	Leaves	Indigestion & acidity
44.	<i>Vitex negundo</i> L.	Verbenaceae	Leaves	Joints swelling
45.	<i>Withania somnifera</i> (L.) Dunal	Solanaceae	Fruit	Semen enhancement
46.	<i>Xanthium indicum</i> Koen.ex Roxb.	Asteraceae	Leaves	Diuretic
47.	<i>Zizyphus mauritiana</i> Lam.	Rhamnaceae	Leaves	Scorpion sting

## CONCLUSION

- This innovative project help in the knowing traditional knowledge of ethnobotany
- We were getting knowledge about ancient medicines.
- We have understood the methods to study medicinal plants.
- The place where we live was still unknown for us, in regard to ethnobotany and ethnomedicine we collected deep knowledge of ethnobotany.

## **Introduction:**

India is a nation; where individuals live in an economy made up of currency notes and coins. The currency notes circulation is much greater than other big economies. Too many transactions are produced by money in India. Electronically, less than 5 percent of total payments occur. But money transactions occur only for 3 percent and 7 percent of total transactions in nations like Sweden and the United States, respectively. A cashless economy is a situation where digital currencies rather than physical currencies make all economic transactions. Cashless India means the cashless transaction. In 2012, former Prime Minister Manmohan Singh brought this to reduce the corruption in India. Later the steps taken by the present Indian Prime Minister Narendra Modi to add something in Digital India Initiative and also in the 2016 demonetization to remove the black money for improving the cashless transaction. A smartphone with network connection is the basic requirement for making the cashless transaction. Prime Minister Narendra Modi has asked people to look at mobile phones as a wallet and bank. The country moves towards the cashless economy after demonetization. The government has developed unique discounts and freebies on electronic transactions to promote the step towards cashless transactions. No need to stand and wait in queues, no need to communicate with bank staff and satisfy customers. A cashless transaction can decrease tax avoidance, black money, corruption, money laundering, facilitate life. As the decision taken by, the Government of India of cashless transactions to resolve problems against corruption, black money to push for cashless economy, there is a good sign of moving towards Make in India and Digital India. There is little number of online transactions of are taken place in Warghadpada Tal. Mokhada Dist. Palghar hardly 10% by the young customers they are well educated and known about the advantages of cashless transactions. To have the transparency in transactions it is good to use cashless economy but it is not possible in India where most of economy is dependent on Rural Economy. In India,60% peoples are from rural India, and 50% peoples are illiterate. Also 70% of Indian Economy is

dependent on agriculture so it's really a challenge to achieve cashless economy. This research examines and categorizes prospective clients based on current user profiles. The profiles can be used to target prospective clients and attract them to take cashless transactions. The literature acknowledged important factors affecting cashless transaction execution, especially from reasoned action theory.

### **Needs of project:**

Palghar District is known as tribal district in Maharashtra. In District the literacy rate is 66.65% and Male percentage is 72.23% and female literacy rate is 59.28%. Tribals have lower access to banking services, lower income, education levels, and health outcomes than the rest of the population, according to data from Census 2011, and the socio-economic caste census. Most of illiterate person have no idea about the use of online or cashless system and young peoples have face the problem of internet connectivity and online frauds. Hence awareness about the cashless or online transaction is needed to this people.

### **Objectives of the Project:**

- To study the problems and issues face by tribal peoples of Warghadpada in the use of cashless transaction.
- To give the knowledge of cashless transaction to tribal peoples Tribal Area Warghadapada Village of Mokhada Taluka.
- To awareness about cashless transaction Tribal Area Warghadapada Village of Mokhada Taluka .
- To study the issues and challenges of cashless transaction in tribals areas.

### **Status of Cashless Transactions in Tribal Area:**

A cashless transaction is one that uses cards or digital means to complete all transactions. Physical monetary circulation is minimal. India is using excessive money for operations. There is also a significantly greater amount of currency notes in circulation than in other big economies. Recent trends have altered in this context, while the IT revolution in India has changed.

### **Awareness Programme organized for Tribal Peoples of Warghadpada Village:**

Commerce Department of Arts Science & Commerce College, Mokhada was conducted in awareness programme about cashless transaction in Warghadpada Village of Mokhada taluka of Palghar District. Name of the event is "Awareness Programme on Cashless Transactions". 08 students of T. Y. B. Com. Class and 2 faculty members of Commerce Department of Arts Science & Commerce College, Mokhada have participated in the event and created the awareness. Department have arranged a field visits in Warghadpada village. They gives the information to village peoples about cashless transaction i.e. BHIM, Google Pay, Phone Pay, Mobile Banking, Online Banking, aware about precautions in cashless transactions.

The main objective of this programme is to impart the concept of Cashless Transactions to villagers. As a part of this objective, we conducted orientation on digital transactions to villagers. The growing shift towards digital payments is strongly debated among governments, central banks and financial experts. Indeed, the proliferation of new electronic and mobile instruments has opened the door to a possible revolution of the payments landscape.

To justify a withdrawal of paper money, governments argue that a fully digitalised system would eradicate tax evasion and money laundering, reduce transaction costs and enable financial authorities to stimulate economic growth. A cashless system would enable governments to track and record every transaction, leaving no loopholes for fraudsters to exploit. Moreover, central banks would be able to impose any desired monetary policy – including negative rates – as consumers would have no way to retrieve their cash from the banking system.

A demise of paper money would enable governments to exercise a full control over the banking system, including tracking and recording all transactions. If this might be useful in the fight against criminality, it will also impinge on consumer rights to privacy. Furthermore, no one would be immune in case of a system failure, and a stolen or broken Smartphone would immediately leave the victim without a payment tool. Last but not least, the millions of unbanked would be left behind without any resource. According to specialists, a shift to cashless might even create

a second-class citizenry and thus deepen the gap between rich and poor. Topics like Debit credit cards. Net Banking. PIN numbers and OTP. How to do online transactions using Net Banking. Use of Buddy App. Creating Online bank account etc., were taught.

### Field Visits

**Field Visits of Students in Warghadpada Tal. Mokhada Dist. Palghar**

### **Outcome of Awareness programmes of Cashless Transaction in Tribal Area:**

08 students of T. Y. B. Com. Class and 2 faculty members of Commerce Department of Arts Science & Commerce College, Mokhada are visited to peoples in Warghadpada villages & gives the information to villagers about cashless transaction. After the awareness Peoples of Warghadpada use the various cashless transaction apps smoothly i.e., BHIM, Google Pay, Phone Pay and various mobile bank apps. The also take care about fraud in cashless transaction. Peoples of Warghadpada have received benefits from this awareness programmes.

## **Challenges of Cashless Transactions in Tribal Area Warghadpada:**

Recently promotion of cashless transactions in a mid of demonetization drives with a motive of bring in transparency, curbing black money and illicit transaction is quite challenging for rural areas because of the following challenges:

- Lack of accessibility because of limited internet penetration and inadequate Information and communication infrastructure i.e. Point of sale, ATM, Cards etc.
- In rural regions, digital literacy and the dearer internet and equipment are significant hurdles because weaker financial circumstances make them expensive.
- Rural economy's informal nature gives individuals a feeling of safety in money transactions.
- Lack of exposure, economic analphabetism and analphabetism limit them to trust virtual transactions due to payment insecurity and cyber loot that is widespread,
- Cultural barriers such as language, orthodox and primitive features of society restrict them to embrace economic transactions of modern means.
- Banking infrastructure in the form of banking correspondents is limited to tiny cities rather than fields hampering economic integration in Panchayat. These Challenges can be Overcome

- Connectivity and better accessibility of POS through sound ICT infrastructure under Bharat network should be assured throughout the clock.
- Promoting panchayat-level digital and economic literacy among rural individuals through NGOs, forming trained residents ' local committees, and a dedicated TV channel on the problem.
- By offering multi-lingual internet payment platforms, i.e. mobile apps, you can remove cultural obstacles.
- Last mile delivery of financial services should be ensured through payment banks and Banking correspondents.

The need for rural fields is to simplify the whole process. A lot of complicated process will take away tribal people's interest.

**Findings:**

Tribal peoples of Warghapada have use of cashless transaction. The cashless transaction's most significant input is that the risk associated with carrying money is anticipated to be reduced. Thus, transactions can be electronically resolved and there is less need to move around with money, so theft and robbery can be decreased. By adopting the cashless economy policy, the growth of financial stability can be enhanced in the country. Cashless transactions also control the corruption in the country and helps in success of digital India initiatives by the Government.

**Recommendations:**

There is a need to reinforce the awareness campaign about the cashless transaction for both current and potential clients so that everyone can learn about it before using it.

- Internet services should be provided in tribal area.
- The cashless banking policy must provide the system's beneficiary with affordable service fees.

**Conclusion:**

A cashless transaction is a transaction where all economic transactions take place through digital means rather than through physical currencies. The nation moves towards the cashless economy after demonetization. The government has developed unique discounts and freebies on electronic transactions to promote the step towards cashless transactions. From the study, it is observed that there is not too much awareness of cashless transactions in tribal peoples and that a significant proportion of people are actually waiting for the cashless transaction to be introduced. The outcome indicated that the cashless economy has a beneficial effect on preventing money laundering and stimulating economic growth, but the research area's people are not conscious of the cashless transaction due to many of the problems mentioned above and also debated how to remove these difficulties.

## INTRODUCTION

Water is a natural valuable resource. It is renewable resource as it can be easily replenished through the nature. This natural resource is used for drinking, washing, bathing, agriculture, industries as well as for generating electricity. But due to urbanization, industrialization we require the water. The most of water get available by the way of rain fall in the nature. India is the agriculture dependent country. Our economy is mostly depending on the agriculture. To fulfil the requirement of water we use stored rain water from dams, even river water, excavating well in the farm or taking borewells in the farm. Even nowadays taking borewells for domestic and commercial purpose is the most practiced concept.

The most of people has been taking borewells in an around to their surroundings and drawing the water from the ground to fulfil their needs. While, on the other hand percentage of natural seeping of rainwater in the ground is very less. The research in this field shows that only 5-10 percentage of rainwater infiltrates into ground in the hard rock regions. Even when rainfall percentage is got reduced that again the seeping percentage consequently shows reduction. To solve the availability of water problem, borewell recharge has too much importance. The borewell is very simple method for making available the water for our needs. Through this method we store the rainwater around the surface of borewell and use it whenever necessary.

## **OBJECTIVES**

- To make water available to the future use
- To Make sustainable use of natural resource
- To avoid rainwater run-off
- To improve water level from different strata of the earth

## **“Borewell Recharge in College Campus”**

---

Mokhada is located 19.9365° N, 73.3404° E hilly area and comes in the Konkan region where rainfall is high. But most of the rainwater is drain out from the top of hills in the valleys. So, most of water drain out and very less amount of water is percolated in the strata of land. Even peoples are facing water scarcity in the season of summer.

Arts, Science and Commerce College, Mokhada has been undertaken the borewell project to fulfil the need of our college. Recharging borewell mostly concern with use of water obtained from rainfall or nearby water bodies. In other word, we can also say that it is nothing but rainwater harvesting.

Borewell recharging technically focuses on the use of harvested surface water (obtained via rainfall or nearby water bodies) where run-off water begins to pass through a natural filter made up of large and small stones. Then, there is another layer of sand through which water passes and finally, it perforates in the borewell pipe via a fine mesh which is wrapped around the drilled casing pipe. The fine mesh ensures the removal of big and tiny impurities before the water enters the borewell.

## METHOD

### **Direct Recharge:**

In the direct recharge method, a percolation pit, usually 10×10 feet, is dug around the tube well's casing pipe. This casing pipe is then perforated with a drill machine and the holes are covered by a nylon mesh. The mesh ensures nothing, but the water goes across the borewell. Now the pre-casted RCC (Cement) rings are placed around the borewell casing through which the harvested water would seep to reach the nylon mesh of casing pipe and proliferates into it through its holes. The empty area between the walls of well and rings is then filled with filtering materials like sand, gravel, crushed stone, jelly and such others. The rain water from adjacent water body such as a catchment pond is diverted into this well, it gets filtered and then continue to seep into the casing pipe, thus refilling the bore well.

Direct Borewell recharge is recommended only if the borewell has run dried or is yielding a negligible amount of water. Even a running borewell can practice direct recharging in case of surplus surface water which otherwise would go down the drains and get wasted. Though letting unfiltered surface water to seep into the ground is highly discouraged as this may contaminate the ground water or clog the aquifer with impurities such as toxic minerals like fluoride and industrial chemical waste.

### **Direct method:**

Our college has been used direct recharge method to recharge the borewell. The recharging f borewell is done as below:

1. Initially percolation pit is excavated with the help of JCB of 2 meter long, 2-meter width and 1.5-meter depth dimension around the borewell casing pipe.
2. The open surface of casing pipe is then perforated with the help of drill machine. The pore size of is 4-5 mm diameter considered for that even care is taken there should be taken distance between 2 pore is 1-2 cm.

3. The holes are then covered by nylon mesh with pore size 2mm.
4. Empty area around the casing pipe is filled with stones of size 20 to 24 mm diameter in size, this layer is of 25 cm in thickness.
5. Over this layer crushed stone or khadi of 9.5 to 15.5 mm is put on and this layer is of 25 cm in thickness.
6. Then kachkadi of 0.6 to 2.00 mm is spread and this layer is of 25 mm in thickness.
7. Lastly broken pieces of bricks put over with thickness of 25 cm.
8. Even some part of pit is levelled with the help of khadi.
9. The rain water flow from adjacent areas is diverted to recharging pit area.

# PHOTO GALLERY

**Steps in Borewell water Recharge using direct method.**

## **CONCLUSION**

- The borewell water level was increased.
- Strata level was saturated and increased.
- It is particularly well suited for nonpotable purposes, such as landscape irrigation, because health risks are minimal and public acceptance is high.
- Where the recharged water is to be used for potable purposes, the health risks and uncertainties are greater.

Student Counselling cell and Department of Chemistry of ASC college Mokhada in association with IQAC jointly organized One Day National Online Workshop on "**De-addiction and Stress Management**" on 17th March, 2022. Mr. Shelar M. S. Clinical psychologist, Snehan Rehabilitation and Mental Health Center, Sukenkar Len, Panchavati, Nashik., Dist- Nashik, Maharashtra was the resource person for this workshop. Mr. Shelar M. S. delivered online talk on De-addiction and Stress Management. Prof. R. A. Kawale, (Convener of the workshop) introduced the resource person as well as the theme of the workshop. Prin. Dr. L. D. Bhor, delivered presidential speech in the workshop. Dr. V. B. Gade (Coordinator of workshop) expressed the vote of thanks. Total 71 participants were attended this online workshop.

Respected Sir,

Arts, Science and Commerce College Mokhada, would like to thank you for taking part in the workshop as a resource person. You delivered a talk on "**De-addiction and Stress Management**" organized by Department of Career Guidance Cell and Department of Chemistry in Association with IQAC, Arts, Science and Commerce College Mokhada on Thursday, 17<sup>th</sup> March 2022 for the benefits of our college students. It was an honour to have you as a resource person for the webinar.

We believe that the knowledge you shared during the webinar will help immensely to make aware about career opportunities to the students. We know your time is precious and we are grateful as you shared some of it with us. We look forward to your participation in future events.

Thanking You!

Your sincerely

### **Program Outcomes:**

28<sup>th</sup> February 2022: Arts, Commerce and Science College Jawhar organized a Science Exhibition on the occasion of National Science Day. The exhibition opens for other college, School Students and their parents. Our College were given invitation pass to visit. The main objectives of organizing this student exchange to Science exhibitions are: promoting interest in Science and Technology among younger generation. Encouraging scientific and technological creativity among students and inculcating a sense of pride in their talent.

रयत शिक्षण संस्थेचे,

कला, विज्ञान व वाणिज्य महाविद्यालय - मोखाडा, जि. पालघर.

दि. १७/०२/२०२१

इतिहास विभाग आयोजित - Extension Activity

Right to Information Act - 2005

### अहवाल

रयत शिक्षण संस्थेचे, कला विज्ञान व वाणिज्य महाविद्यालय मोखाडा, जिल्हा पालघर येथील महाविद्यालयातील इतिहास विभागामार्फत Extension Activity अंतर्गत दिनांक 17/02/2021(वेळ - ०९:०० ते १०:३०) रोजी महाविद्यालयातील विद्यार्थ्यांना 'Right To Information Act- 2005' या विषयावर व्याख्यान आयोजन करण्यात आले होते या व्याख्यानासाठी एकूण 45 विद्यार्थी उपस्थित होते. 'Right To Information Act - 2005' या व्याख्यानासाठी प्रमुख वक्ते डॉ. एस. एच. जाधव यांनी माहितीचा अधिकार कधी अमलात आला, त्यासाठी अण्णा हजारे यांनी प्रयत्न करून यश कसे मिळवले, माहिती अधिकार अस्तित्वात येतांना त्यासंबंधी माहितीच्या अधिकाराची एकूण किती प्रकरणात विभागणी झाली आहे, माहिती अधिकारात अर्जदार अर्ज करून कश्या पद्धतीने संबंधित कार्यालयाकडून माहिती मागवू शकतो याविषयी सखोल माहिती विद्यार्थ्यांना दिली. या व्याख्यानाचे अध्यक्ष महाविद्यालयातील प्राचार्य डॉ. जे. जी. जाधव यांनी विद्यार्थ्यांना प्रोत्साहनपर मार्गदर्शन केले. या व्याख्यानामार्फत विद्यार्थ्यांमध्ये जाणीव जागृती होऊन समाजामध्ये या माहितीच्या अधिकाराची जागृती घडवून आणण्याचे आवाहन केले. विद्यार्थ्यांसोबत संवाद साधल्यानंतर त्यांनी आपले मत व्यक्त केले. व्याख्यानाचे आभार प्रा. भोये डी. आर. यांनी मानून कार्यक्रमाची सांगता झाली.

## Appreciation Letter

To,

Mr. Mengal Santosh Gangaram  
Abasaheb Marathe Arts & Commerce Science College, Rajapur  
Dist. Ratnagiri.

Respected Sir,

Arts, Science and Commerce College Mokhada, would like to thank you for taking part in the awareness lecture as a resource person. You delivered a talk on "E-Commerce" organized by National Service Scheme of college unit on 24<sup>th</sup> February 2021 for the benefits of teachers and students. It was an honour to have you as a resource person for the workshop.

We believe that the knowledge you shared during the workshop will help immensely to spread awareness on E-Commerce to the students of National Service Scheme. We know your time is precious and we are grateful as you shared some of it with us. We look forward to your participation in future events.

Thanking You!

Yours Sincerely
