

Field visit report (2018-19)

Mokhada lake

The Department of Botany organized a field visit for the students of T.Y.B.Sc. Botany to the Mokhada lake on 15/09/2018. Lake is located to half kilometer away from our college. This lake is primarily used by local people for washing water purpose. It is with an area of about 10 acres. It is shallow lake with well-built compound or fence. Our prime aim to visit this lake is study the pond ecosystem. This lake is with fresh water and consists of hydrophytic plants. The hydrophytic plants are with submerged, free floating and rooted type.

Total 12 students along with 2 teachers were participated in this field visit. Some of the hydrophytic plants we have seen during the visit are as follows:

- *Hydrilla*,
- *Vallisneria*,
- *Pistia*,
- *Lemna*,
- *Trapa*,
- *Jussiaea*

Outcomes:

- Students get on hand observation of pond.
- Students understand the hydrophytic ecosystem.
- Students get knowledge about various hydrophytic plants from the lake.

Following students were participated in the field visit

Sr. No.	Roll No.	Students Name	Signature
1.	9801	Dubhashe Pratiksha Namdev	
2.	9802	Gare Rani Ramdas	
3.	9803	Ghatal Manali Parashuram	
4.	9812	Hiwarade Mayuri Subhash	
5.	9804	Kadu Dhananjay Parashuram	
6.	9805	Kaule Dnyaneshwar Bhau	
7.	9806	Kothe Aishwarya Krishna	
8.	9807	Navale Vaishali Ramdas	
9.	9808	Pawar Nalini Bhanudas	
10.	9809	Shende Gauri Madhukar	
11.	9810	Ughade Harshada Santa	
12.	9811	Wagh Pranali Nandkumar
