

Field Visit report (2018-19)

Rural Hospital Mokhada

The Department of Botany organized a visit to Rural Hospital Mokhada for the students of T.Y.B.Sc. Botany on 1st February 2019. Rural hospital is located to one and half kilometer away from our college. This Rural hospital is primarily used by local people for medical treatment to various diseases. It is with an area of about 7 acres. It is with well-built compound or fence. Our prime aim to visit this Rural hospital is to study the various instruments available to hospital. This hospital is with OPD, ward, laboratory, Operation Theater. The hospital has special malnutrition child treatment ward.

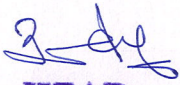

Total 10 students and 2 teachers were participated in this field visit.

Some of the instruments we have seen during the visit are as follows:

1. Stethoscope
2. Blood pressure measuring apparatus
3. Sterilization unit
4. X ray unit

Outcomes:

1. This visit will be useful to our students on hand knowing the various instruments from medical field.
2. The students will become aware about facilities offered by the hospital.
3. Students will understand recent crisis of malnutrition facing by the local people and the facility available in the hospital to lessen the malnutrition.
