**Subject : Letter of appreciation**

Respected Sir,

Thank you very much for delivering an informative lecture as Guest Speaker on *Importance of Biodiversity and Plant Taxonomy* held on 19<sup>th</sup> March, 2018 at Arts, Science and Commerce college, Mokhada for B.Sc. Students.

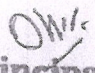

It was really a splendid presentation which exposed students to the field practices. All the students appreciated and got benefited from your views on the subject.

Looking forward for your cooperation for the promotion of conservation of biodiversity and plant taxonomy in future as well.

Thanking you,

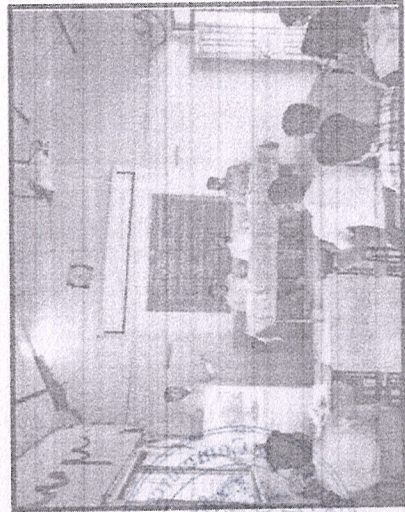

Yours faithfully,

A Report of

GUEST LECTURE ON "IMPORTANCE OF BIODIVERSITY AND PLANT TAXONOMY" ORGANIZED  
UNDER STUDENT WELFARE BOARD: B.C. BOOK BANK REMIDAL CLASSES, MUMBAI  
UNIVERSITY, MUMBAI

Day & Date : Monday, 19<sup>th</sup> March, 2018

Name of Expert : Dr. Avinash A. Adsul, Department of Botany, Gokhale Education  
Society's Arts, Commerce & Science College, Jawhar, District Palghar.

Guest Lecture for: Science Students (All Classes B.Sc. I, II & III)

Total No. of students benefitted :

- B.Sc. I: 19
- B.Sc. II: 29
- B.Sc. III: 14

• Highlights of the Lecture

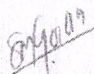

The lecture was focused on the following issues

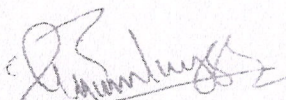

- What is biodiversity ?
- Types of biodiversity
- Conservation of plants : In- situ & Ex-Situ Conservation
- Success Story of Conservation of *Ceropegia mohanramii*
- Flora and Fauna of India
- Bio geographic areas of India
- Species are invaluable

- Objective of the guest lecture

The above said lecture was organized to enrich the curriculum of B.Sc. I year of Botany and Zoology which includes topics related to the Biodiversity, Ecosystem and Ecology. With this it was also helpful to create the awareness among a I science faculty students about environmental issues like present state of Indian Biodiversity, Current threats to Indian Biodiversity and Conservation of biodiversity. It was really an informative lecture on importance of biodiversity and plant taxonomy. The expert covered all the necessary information and processes essential for actual conservation of species. The invited speaker, Dr. Adsul A. A., also explained the success story of conservation of *Ceropegia mohanramii* (A Critically endangered species) in the Northern Western Ghats, Maharashtra. All the students appreciated and got benefited from his views on the subject.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author details the various methods used to collect and analyze the data. This includes both manual and automated processes. The goal is to ensure that the information is both reliable and up-to-date.

The third part of the document focuses on the results of the analysis. It shows a clear upward trend in the data over the period covered. This indicates that the current strategy is effective and should be continued.

Finally, the document concludes with a series of recommendations for future actions. These include increasing the frequency of data collection and exploring new markets. The author believes that these steps will lead to even greater success in the future.
